

# THE GLEICHEN CALL

VOLUME XXIX NO. 33

GLEICHEN, ALBERTA, WEDNESDAY OCTOBER 28, 1936

SUBSCRIPTION \$2.00 PER YEAR

## LOCAL RUGBY CLUB SHOWS MUCH IMPROVEMENT

(By Don Sabin.)

Although defeated by a score of ten to six, the Gleichen rugby team put on their best display of the season at Milo. The score is a fair indication of the play, the game being an even struggle and packed with excitement all the way through. Gleichen were very unlucky to lose possession of the ball in the last quarter on a fumble when they were only a few feet from a touchdown.

Gleichen kicked off against a high wind and were swept off their feet by two speedy touchdowns made by Milo, in each case the major points being scored by end runs, two of the Milo halves being very fast runners and getting away each time in a clear field. They were watched closely after that and Milo never got away again for the rest of the game. Neither touchdown was converted for the extra point. The Gleichen touchdown came in the third period when Dennis Woods blocked a kick from scrimmage on third down and the ball was recovered by Bud Lester who went over the line standing up. Jerry Yates converted for the extra point.

Aselline, playing quarter for the Milo-Queenston aggregation, put up a wonderful display of broken field running, also halfback, McLaughlin, was outstanding for Milo, but with the effective watching of these two players, Gleichen had their opponents stopped.

The whole Gleichen team was a lot to see and played bang-up rugby and it is impossible to single out any one player for individual mention, with out being unfair to the rest, and with more knowledge of the game they would have thoroughly beaten Milo. The return game between these two teams at Gleichen next Sunday ought to prove a banner attraction.

### THE TEAMS

Gleichen Milo-Queenston:  
J. Lyons Quarter Aselline  
J. Yates Halfbacks Peterson  
A. Bagette Robertson  
J. Cook Northcote  
W. Lester Mallett  
E. Lester Right-wing McCallum  
W. Schmidt Right Guard Hellevang  
L. Kluger Right Tackle Smith  
D. Woods Snap White  
J. Swain Left Tackle Heathcote  
W. MacCallum Left Guard T. Beckner  
Left Wing R. Beckner  
Milo-Queenston subs not known  
Gleichen subs: D. Garland, J. Garland, Little, Warner, Murray.  
Referee, Don Swain, Umpire, Mr. Aselline. Headlinesman, Mr. Brock.

### SPORTLETS

"Octoberitis" that gloomy expression on every Gleichen hockey fan's face. "We sure ain't gonna have no hockey team this winter." Same thing every year, but when the playoffs get around to the semi-finals you will notice that the Gunners are mostly there.

The prize crack of the week. "Hav't seen your wife for sometime Bill, anything wrong?"  
"Yes, she's had quinsy."  
"Miford—how many does that make?"

Never mind Jack, even if it was one of your own team mates, it was a grand tackle anyway.

Comparisons. Milo 27, Vulcan nil; Milo 6, Arrowwood nil; Milo 10, Gleichen 6. Compare those scores with the trimmings Gleichen have taken at the hands of Arrowwood and it should convince you that our team is making progress.

Two games at Gleichen this week. Wednesday Arrowwood and Milo on Sunday afternoon. Everybody turn out and root the boys to a victory. They've still got to chalk up their first win. Be in the thrill when they do it.

How do you like it Johnny? Just wait until they learn interference so you can make as many yards forward as you make 'em from side to side now, then we'll be on the rugby map right.

And did The Gleichen Call panning last week work out fine or not? We'll say so, it worked like a charm—you played real rugby at Milo, all of you. See to it that we do not have to pan you again.

## THE WORLD OF WHEAT

(By H. G. L. Strange, Director Research Department, Searle Grain Company, Ltd.)

Wheat prices have bounded up. Why?

Simply because the excess, or burdensome world's surplus, has disappeared—it has been eaten up. So a heavy burden that has been difficult and expensive to carry has at last been lifted from the backs of our Canadian farmers.

Before 1928 the world, with an average production and consumption of some 5,400 million bushels, usually carried over each year about 600 million bushels, but in 1928 many countries experienced an extraordinary yield to the acre, and so the year-end surplus suddenly and greatly increased.

More than this, during the years of depression, people ate less bread, all of which resulted in the usual 600 million bushels surplus growing by 1934 to the vast amount of 1,168 million.

Since 1934, however, several important wheat producing countries have suffered from very poor crops and the world's actual production less than it consumed, and so the world's large burdensome surplus year has been drawn upon until now it has completely disappeared. Not only is this the case, but as well there will be, I calculate, on August 1st next, only 400 million bushels in the world's cupboard for a carry-over instead of the usual 600 million.

Just as increasing surplus depressed price from 1928 to 1934, so it seems as prices rise as the surplus in turn becomes less.

The following factors have appeared to have effect of pushing wheat prices up: lack of rain, pestilence in Australia; France is resuming wheat importations; the European rice crop is six per cent less than last year.

Factors depressing prices have been as follows: Large wheat shipments from Australia, Argentina, Australia, India, and other countries. Seasonable weather for all work in Europe; European demand for wheat declining; favorable conditions in the United States winter wheat belt; increased estimates Japanese and Chinese wheat crops.

### GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, minister.  
Mr. H. B. Smith, choir leader.  
Miss Jean Farquharson, pianist.  
11 a.m. Church School.  
7:30 p.m. Devine Worship.  
Children's topic: "A little fox that you can't see."

Subject of sermon: "The Greatest Thing in the World."

### OBITUARY

MRS. D. R. JOHNSTON

Mrs. D. R. Johnston of Milo passed away in the High River hospital early Sunday morning from an attack of pneumonia, at the age of 31 years. Mrs. Johnston was born in Boston, Mass. For a time she lived in Nova Scotia before coming to Gleichen 15 years ago. It was 11 years ago this fall that she was married to Mr. Johnston, then moved to Milo where she had resided since that time. Besides her husband she is survived by her mother, Mrs. Moore and sister Mrs. L. Michael of Gleichen, and another E. Moore of Kamask, Sask. The remains were brought to Gleichen Monday morning and Tuesday at 9:30 Mass was held by Mrs. E. S. Killam and Hyatt at St. Victor's Church after which the remains were interred in the local Catholic cemetery. The pallbearers were Messrs Downey, Menard, Purcell, Thornton, Phillips and Thompson. Among the floral offerings the following were noted: Mother, Duncan, Mr. and Mrs. Michael, and family; D. H. Johnston and family, Tommy, Trill, B.C., Eddie and Dolly Moore, Tom and Nora of Kamask, Mr. and Mrs. R. W. Brown, Milo Hockey Boys, C. F. R. staff, Milo School, Milo friends, Mr. and Mrs. J. Black, Spiritual offerings: Mr. and Mrs. E. Woods; Mr. and Mrs. P. Downey; Ladies Aid of St. Victor's Church (2); Mr. and Mrs. E. Menard; Mr. N. Purcell; Mr. and Mrs. T. Plante and family; Miss Lucy Morton.

## GIRL GUIDE WEEK FULLY OBSERVED BY LOCAL GUIDES

In Gleichen the first Canadian Guide Week was a very special event or series of events.

In order that no girl should miss the opening broad cast on Saturday evening Mrs. Swain and Miss Freeman installed a radio in the Guide Hall. The girls who met in their own family surroundings must have been specially inspired by the message that came across Canada to them there.

On Sunday morning Rev. Mr. House conducted special Guide service in the Chapel of Old Sun School. In the evening Mrs. Wilkinson held a similar service in the United Church.

Monday was International Day. In the evening the Brownies, Guides and Rangers met together in the Guide Hall. Mr. Boyd gave a most interesting talk on the League of Nations and the international side of Guiding. In Switzerland the Guides have an International Chalet. Mr. Stenmeyer told the girls about a visit he had once made to the Chalet.

Tuesday evening Mrs. J. Downie, Miss Morton and the Rangers had an open meeting in their hall. Their interested visitors found them busy with needle work, while Mrs. Michael gave one of her home nursing talks.

Wednesday was Home Craft Day. The Guides demonstrated a bit of their ability along this line by preparing and serving an afternoon tea.

Friday was Citizenship Day. In the afternoon Mrs. Deshayes and Miss Freda MacCallum and Miss Winnie Carriek and the Brownie Pack held open house in their Legion Hall rooms. Here many visitors found these young ladies had mastered many details of handicraft as well as considerable home-craft. Mrs. Bell who has been Tawney Owl of this Pack has regretfully had to resign from this position. On behalf of the Pack and its Brown Owl, Theresa Fleury presented Mrs. Bell with a gift of appreciation and remembrance.

Friday evening all companies and patrols, including the Cluny Camp with Mrs. Scrimville and Miss Chase joined again in the Guide Hall to hear Rev. Mr. House tell them how he thought they might become the best of citizens.

Only bad weather prevented the girls on Saturday from taking a hike or playing out of four games.

These meetings, all open, have added greatly to the entertainment of the Guides and to the interest of their friends.

### USE YOUR LOCAL PAPER

Speaking at a dinner tendered a group of business men, a representative of an advertising agency, told his audience some simple but important truths regarding the building of business. In an informative address, he stated that the best way to sell a product was to tell the truth about it because the public read newspaper advertising as a guide to their purchasing. Then he went on to give some advice to these business men, advice which is applicable to the business of any community.

He said: "If you have a local newspaper, use it, even if you are located in one corner of the county and can only get value from a part of the circulation. Tell your story from time to time and you will profit by it."

"The newspaper is an important factor in knitting together a community, and to the extent that you can strengthen it, you will be making the paper a stronger medium for your own and the manufacturer's advertising."

"Too many merchants endeavor to sidestep seeing a newspaper advertising man or publisher for fear that they expect them to cough up for some advertising; and too many publishers keep away from the merchants because they feel that that is the merchant's attitude. This is absolutely wrong, as the interests of the two are so bound up with the growth of prosperity of the district that they should work together at all times."

### SIDEGLIGHTS

A valued reader of this paper formerly a resident of Gleichen, but now living in British Columbia, in re-

## LARGELY ATTENDED MEETING APPOINT THREE DELEGATES

A special meeting was held in the Oddfellows Hall, on Wednesday afternoon of last week in connection with the proposition whereby a new irrigation district might be formed and the Canadian Pacific Railway be released of the Western Block of the irrigation system. Almost one hundred people were present—farmers from all directions.

George E. Bell was appointed the chairman, while Miss McFarlane of Brooks acted as secretary. Several prominent speakers were present, among others Mr. McCune, M. L. A. and Mr. Cain, M.L.A., and Mr. Powell, barrister of Brooks.

Mr. Axel Larsen, who has taken a leading part in bringing the various committees together, spoke for a few brief moments. He was followed by Mr. Cain, who related some of the experiences in connection with the Eastern Irrigation District; the results obtained and the bright outlook for the future.

Mr. Tate White of Brooks, a farmer, who came into this district in 1909 and who is one of the prominent farmers in the Eastern Irrigation District spoke of the success of the venture at Brooks of his own experience being one of the contract holders. The point he particularly stressed was the tremendous debt reduction in the purchase price of land.

The purpose of the meeting was to appoint three delegates representing Gleichen as a local district. Those appointed were George E. Bell, David McBean and R. B. Hayes. Their appointment was made unanimous by the meeting.

## HOCKEY CLUB TO STAGE FIGHT CARD NEXT WEEK

The Hockey Club is staging a boxing show on Thursday November 5th, in the Community Hall in the main event Emil Louis of Medicine Hat will meet Yorke Bentley of Alex. These boys are in the welterweight class.

Charlie Smith of Gleichen 145 pounds will meet Kil Kleser, 142, of Calgary over the 6 round course.

Jock Riley, 140, Cluny will tackle Willie Cutler, 138, of the Blackfoot Reserve.

Buster Roache, 132, of Gleichen and Kid Young, 132, of Calgary are billed for six rounds.

her subscription accompanies it with a tip which we pass along. Here it is: "If any one of the home town merchants realized that those of us who are away read their ads almost as carefully as we do the news items they would be interested. And when we don't see their ad we just naturally wonder 'has so and so gone out of business?' Isn't it quite possible that readers who are not quite so far away have the same reaction. Now comes to the district very naturally look over columns of the local paper for direction in the matter of buying. What more likely than in perusing the columns of The Call they should assume that its advertising space furnishes and accurate directory of the town's business houses? A glance over the paper will reveal who are the business men that are co-operating in the matter of keeping the business interests of the town properly before the public."

A noted educator suggests that we should make our ignorance "selective," meaning that inasmuch as no one can become informed about everything, we should deliberately select those subjects of which we are content to remain in ignorance. For most of us there would make a quite lengthy list.

Lower mathematics for school girls is recommended by a school board, among the problems suggested being that of budgeting the income of a husband who earns about \$20 a week. If one might be taught how to provide for groceries, clothes, rent, gasoline, cosmetics, haircuts and other necessities out of such an income, with enough left over to pay the installments on the car and radio, it would be of more practical benefit than a knowledge of trigonometry, or even calculus.

## GUNNERS HOCKEY CLUB ELECT OFFICERS FOR YEAR

The annual meeting of the Gleichen Gunners Hockey Club resulted in the election of a new slate of officers. R. W. Brown, sr., expecting to be absent most of the winter season, resigned as president, which resignation was accepted with very much regret. He was succeeded by W. Stenmeyer, who has taken an active interest in hockey for sometime and occupied the position of secretary-treasurer for the past three years. The following complete slate of officers for the coming season was duly elected:

Hon. president: G. H. Gooderham. Hon. president: R. W. Brown, sr. President: W. Stenmeyer. Vice-president: Charles Thompson. Secretary-treasurer: H. E. Myers. Business manager: Wm. McConnell. Messrs O. Lindquist, and S. Lester, W. J. McKay and A. Wilson were elected members of the executive council. The coaching of the team was again left in the hands of Bob Brown and Bill Service.

The finances of the club were discussed at the home of Mrs. R. Umbrite last Thursday with 18 members and visitors present. Mrs. A. Buckley was in the chair.

Roll call was answered by salad or sandwich filling. Mrs. A. Buckley gave a very interesting paper on "Bees." The exhibit of handicraft which was programmed for November 5th, was postponed till March 1937, to allow members more time to prepare for same. "White Elephant" was enjoyed by a few members, and it was arranged to have another "White Elephant" at the next meeting, so all members are asked to bring one.

Mrs. Jasten was declared winner for the prize raffle, which was stationary. The next meeting will be held at the home of Mrs. J. W. Hutcheson, Mrs. F. Sammons acting as hostess, on November 5th.

cussed at some length and provisions made to raise funds in the near future.

## Selecting Municipal Representation

With the near approach of the annual municipal elections in urban centres and rural districts throughout the prairie provinces, the time has arrived when citizens might well devote some serious thought to the type of men (or women) who should represent them in the local councils during the coming year.

While at all times the question of the quality of representation on municipal councils is one of considerable importance, this year it is one of much magnitude, partly on account of the difficulties of local government occasioned by problems arising out of the depression and partly because of the restlessness of the changing times and changing viewpoints, particularly on social and economic problems.

From small but vociferous minorities one hears of suggestions and plans for changes which, if put into effect, might constitute a threat to the continued existence of democratic government in this country and there is always a danger, under a democratic form of government, of minority groups imposing their will on the majority, if the majority are apathetic about the conduct of their own affairs.

For this reason, if for no other, it is highly important that the citizens of this country take an active and intelligent interest in their own business—the business of government, whether it be in the local councils, the provincial legislature or the wider Federal arena.

It is unfortunately the case that sometimes municipal election issues are decided by a comparatively small percentage of the electorate because so many refrain from going to the polls to express their desires through the ballot. If this results in the election of representatives unacceptable to the majority and the imposition of policies inimical to their interests, those who refrain from casting their ballots on election day have no "come-back" and deserve none.

To many it may seem that local affairs are of little importance. They appear trivial when matched with provincial issues or Federal policies and this misapprehension sometimes leads to an attitude of nonchalance on the part of a section of the electorate.

On the contrary, however, it should be remembered that despite the fact that local municipal units are the creation and, therefore, the creatures of a superior government, nevertheless local self-government is the bulwark of the people and of all government, and with the extension of activities and authority imposed upon municipal councils in recent years is becoming increasingly so.

Not only that, but in many matters closely affecting the lives and welfare of the citizens of the country, the major governments have adopted the custom of seeking the advice and assistance of local municipal representatives in an increasingly large measure. They regard them, properly, as the mouthpiece of the district they serve and more often than not defer to their wishes.

For this reason, as well as the necessity of having men capable of administering local affairs wisely, it is highly important that the municipal electors use care and sound judgment in selecting the men who are to represent them in the councils, that all the electors participate in the function of casting the ballot and that once having made their selection the electors support their representatives as long as they prove worthy of the high trust imposed in them.

If the great majority of the electors take these duties seriously, less will be heard of trivial matters being injected into municipal election campaigns and municipal council debates and there is less likelihood that elected representatives will listen to insistent demands of organized minorities or individuals who seek concessions or make proposals adverse to the interests of the great rank and file of the electorate.

One sometimes hears it stated that it is difficult or impossible to induce the best-fitted to accept nomination for public office. If that is so, it must largely be the fault of the percentage of the electorate who decline to take an active interest in their own affairs, both in the matter of selecting candidates and in giving them hearty support in devising and carrying out measures and policies for the benefit of the community as a whole.

Such comments are not, of course, applicable to all municipalities, and perhaps not even to a majority of them. In many cities, towns, villages and rural municipalities in the three prairie provinces, the electorate demonstrates a highly intelligent and active interest in its own affairs, and as a result their business is conducted wisely and well by capable men and men of integrity who justly command a respect and confidence which is not confined to the communities they serve.

Staff lessons in drill and physical culture are given by every factory in Germany.

## Dog Solves Crimes

Does Valuable Work in Connection With Duties of Mounted Police

"Dale," a big black and tan with a keen nose and a marked devotion to duty, is now a valued member of the Royal Canadian Mounted Police establishment at Calgary.

Dale is a dog who has done such remarkable work in solving a number of crimes in the Calgary district that he has won honorable mention in the Royal Canadian Mounted Police annual report, just off the press. It takes a full page in the report to describe the dog's exploits.

Here are a few of the cases in which Dale distinguished himself: Eileen Simpson, two and a half years old, wandered away from her home. A search party failed to find her. Dale was called in and did.

Under difficult conditions Dale helped police in connection with the murder of Sergeant T. S. Wallace and Constable G. C. Harrison by Joe Poniakoff, Peter Volken and John Kalmakoff, who were killed themselves in gun battles with the police. Dale traced a demented man who caused an explosion in a farmer's house from a gasoline saturated suit of underwear found at the cellar door. The same farmer had lost two rolls of wire netting. Dale was taken to the place from which the netting was removed. He picked up the scent, found the wire and led to the arrest and conviction of the thief.

But Dale is ornamental as well as useful. He took first prize in his class at the Calgary dog show.

## WAKE UP YOUR LIVER BILE—

And You'll Enjoy Good Food in the Morning! Ready to Go

The liver should pour out two pounds of bile into your bowels each day. If it does not, you will feel sluggish, your food does not digest, and you will have a headache, indigestion, flatulence, constipation, hemorrhoids, and a general feeling of uneasiness. You need something that will wake up your liver and get it going again. You need a laxative that is gentle, that does not irritate the bowels, and that is pleasant to take. You need a laxative that is gentle, that does not irritate the bowels, and that is pleasant to take. You need a laxative that is gentle, that does not irritate the bowels, and that is pleasant to take.

Supplies Reach Coppermine

Hudson's Bay Boat Goes Through The Ice After Difficulties

Relieving anxiety which has lasted for months, supplies have finally reached Coppermine, principal base in the Central Arctic, according to reports reaching Edmonton. Blocked for weeks by huge ice floes in the Arctic the schooner Audrey B., under charter to the Hudson's Bay Company, carrying supplies to the trading posts, has finally made its way through the ice of Coronation Gulf, reached Coppermine, and now is frozen in at that point.

Owners of the schooner, Jack Lickert, Bill Storr, Art Watson and "Slim" Parnell have sent word of their safe passage and a radio telegraph message to this effect has reached Edmonton.

The other Hudson's Bay supply ship made Coppermine safely on October 6. About her was Bay Row, company post manager of Reid Island, and his bride, the former Miss Lillian Smith of Edmonton.

## No Campaign Speeches

Alaskan Woman Is Elected By Visiting Voters By Acropolis

Alaskan first woman legislator, Flying Nell Scott, was elected without making a single campaign speech. The Seldovia woman's aerial campaign ignored both political practice and traditions of feminine talkativeness. She let her masculine opponents have the first and last word, while she took the votes. She covered the district in an aeroplane, having heart to heart talks with individual voters and key persons in organizations. Her platform was based on popular Alaskan issues: Abolition of fish traps; enactment of social security legislation; financial aid to prospectors; substantial bounties on predatory animals, and more and better aeroplane landing fields.

Streamlined steam locomotives constructed for an eastern railroad have fins around their smokestacks to deflect the smoke upward to give the engineers the best visibility at all times.

The music of "America" also is the music of the national anthem of the British Empire, Denmark and Switzerland.

Sydney, Australia, will spend \$3,500,000 on the city railway. An Englishman invented matches 100 years ago.

Two quarts of liquid should be drunk daily by an adult. 2174

## Letter Of Thanks

Mayor Of French City Votes Gratitude For Gift From Canadians

The pilgrimage of Canadian ex-servicemen and their dependents to Vimy Ridge during the summer was recalled by receipt of a letter of thanks from Mayor Milot, of Valenciennes to Lieut.-Col. J. S. Rankin, D.S.O., former commanding officer of the 45th (South Saskatchewan) battalion.

The letter, voiced the gratitude of the city for the velvet-bound copy of the operation order covering the attack on Valenciennes on November 1, 1918, in which affair the late Sergeant Hugh Cairns of the battalion, won the Victoria Cross.

The day prior to the unveiling of the Canadian Memorial on Vimy Ridge the city of Valenciennes dedicated a street to the memory of Hugh Cairns, and in the course of the ceremony Major G. H. Gilbert, M.C., Yorkton, Sask., on behalf of the 46th Battalion, presented to Mayor Milot the copy of the operation order.

In his letter the mayor said this document was now translated into French, and had been placed in the municipal library "in order that the citizens of Valenciennes might know to whom they are indebted for their deliverance."

## Substitute For Gasoline

Amateur Chemist Says Invention Will Benefit The World

An obscure Pittsburgh inventor and interior decorator, who likes to dabble in chemistry on the side, claims to have hit upon a secret formula from what he asserts he has developed a substitute for gasoline.

He believes his discovery, which has not yet been put on the market, or been protected by patents, will revolutionize the gasoline industry. The amateur chemist is Frederic J. Hoyer, and, as one example of the manner in which his "gas substitute" will benefit the world, says general use of his "gas" would greatly reduce, if not entirely, deaths from monoxide fume poisoning.

In a recent demonstration of his discovery, Hoyer, accompanied by his attorney, A. F. Burkhardt, and a reporter drove a car with standard equipment fourteen and one-half miles on a gallon of ordinary gasoline, and one-tenth of a mile more on a gallon or what he said was his "gasoline substitute."

At the completion of the last demonstration, Burkhardt declared: "Well, as far as we are concerned, this new fuel is perfected."

## SELECTED RECIPES

### FRUIT OATMEAL COOKIES

1 cup brown sugar  
1 cup white sugar  
½ cup butter  
2 eggs  
½ cup currants  
1 teaspoon soda  
1 cup Purdy Flour  
2 cups oatmeal  
½ cup stoned dates, cut finely

Method: 1. Cream butter; add sugar. 2. Add well beaten-eggs, dates and currants. 3. Sift flour with soda and add to Mixture No. 2. 4. Lastly, add oatmeal, stir well. 5. Form into loaves, set in cool place, let stand overnight; then slice thinly and bake in slow oven of 300 degrees for 15 minutes.

### Breath Danger

Little mentioned among the dangers to cattle is the possibility of the animals eating the hearty Sudan grass, cane or any kind of grain sorghum which, although stunted in growth by the dry weather, will stay green long after the normal feed grasses have withered. The Department of Agriculture reports that in eating these plants live stock may consume a deadly dose of hydrocyanic or prussic acid, present in the plants.

Argentina has greatly increased in peanut production this year.

## A Precious Relic

Interesting History Of Coronation Chair At Westminster Abbey

While the work of preparing Westminster Abbey for the coronation next May is proceeding, one important relic at the Abbey will undergo no renovation, the Coronation Chair, according to a writer in the Manchester Guardian.

Except for dusting it requires nothing done to it, and it would not stand much. The famous stone of Scone—and it had a history in Ireland before it was taken to Scone—has a wide crack which all but rent its solid mass asunder, and iron rings encase the chair. It is not only age which has caused the wear and tear. Though every monarch since Edward I. has been crowned on it, the use it has undergone on those occasions has been negligible.

For a long period of its history it was very poorly looked after. Nearly everybody, it seems, was allowed to sit in it by permission of the attendants, or else did so on the sly. An inscription on it, "Peter Abbott slept in this chair, July 5th, 1800," is illuminating. Peter Abbott went into the Abbey at night for a bet that he would carve his name on Purcell's monument. He did not succeed in doing that, but he had no difficulty on the Coronation Chair. The surface of the chair is a mass of scratches made by visitors who wanted to leave their mark on it, and there must have been a time when every Westminster schoolboy deemed it a disgrace if he left school without carving his name on the Abbey's most precious relic.

## U.S. Naval Strength

America's Naval Fighting Power Has Been Reduced

An official report disclosed that America's naval fighting power had been reduced since July 1 while other major nations were increasing theirs.

The figures, made public by the navy department, showed the United States, chiefly by scrapping old warships in accordance with provisions of the moon-to-expire London treaty, had cut its naval strength from 324 ships of 1,080,715 tons to 306 ships aggregating 1,062,875 tons.

Berlin's percentage of police is 2.4 per thousand of population, while that of England is 5.05, and France, 3.18.

## Town & District

The W. A. of the United Church held a special sewing meeting at the home of Mrs. H. Birch, the president. Preparations are being made for the annual bazaar, the date for which has been set Saturday, December 5th. The bazaar will include a sale of fancy work, homecooking, a tea and other novelties. A good representation of members were present at the meeting and a number of articles were completed under the direction of Mrs. Birch. Tea was served by Mrs. Farquharson and Mrs. R. S. McQueen. The regular meeting of the Association will be held at the home of Mrs. Pat Mahoney on November 5th.

A very pleasant evening was spent at the home of Mrs. J. McArthur, when whilst took up most of the evening. Winners being: ladies first Mrs. Roueche; booby Mrs. Calkins. Gents first, Mr. R. Ertz; booby Mr. Baub. A dairy lunch was served after which some sat down and enjoyed cards, while others joined in a sing-song. The party was arranged rather early in the season owing to Donald McArthur leaving for Old to take up a course in the agricultural school.

W. E. Anglin and Art Paecok have taken over the management of the Taxidermy Service and announce that they will be at the service of the general public. They invite all car owners to give them a call.

At a meeting of the local branch of the Canadian Legion arrangements were made to hold the annual Remembrance Day service on Nov. 11, similar to that held on previous years. In the evening the annual dance will be held. As there is one of the outstanding social events of the season no doubt a large crowd will be on hand.

On Saturday at 2 p.m. the Gunners Hockey club are holding a rummage sale on the main street of the town. Already quite a large number of items have been donated and the hockey boys state if you have anything to donate, worth from 1c to \$10 just hand them over to Mr. Sutermeister who will see they are listed. T. H. Beach will be the auctioneer.

W. W. Smith and family expect to leave Gleichen shortly for Delia, where Mr. Smith will manage a lumber yard and a hardware store.

### CARD OF THANKS

I wish to thank those who so kindly assisted in any way during my recent sad bereavement.

DUNCAN R. JOHNSTON.

### THE COMPOSITION AND USES OF SOY BEANS

The world production of this valuable legume is probably in excess of seven million tons annually. Manchuria, the largest producer, is followed by Japan and the United States. Statistics relative to the Russian crop are not available. Canadian production is as yet too small to exert much influence on the world market, but there is an increasing interest in the soy bean crop. Varieties suitable for domestic production are gradually replacing the imported beans.

The uses of soy beans are many and varied. Considerable amounts of the oil is used in paint mixture in conjunction with linseed and tung oils. A prominent automobile manufacturer who maintains a staff of chemists how finishes his product by utilizing an enamel, the base of which is a synthetic resin produced from the soy bean. The resin also finds application in the manufacture of electrical equipment. Because of its drying properties, the linoleum and oil cloth in industries use large quantities of soy bean oil. Much of the oil finds its way to the soap vats. Here it is especially suitable for automobile soaps. Glycerine is produced as a by-product.

Some other uses for the oil are, an rubber substitutes, celluloid, printer's inks, explosives, salad oil, lighting and lubricating oils, as core binders for foundry work. The partly hydrogenated crude oil has been found useful as a stabilizer for shortening compounds. Soy bean oil contains lecithin, a phosphorised fat, and is displacing egg yolk to some extent as a source of this material used in medicine. Of interest too, along medical lines, is the disappearance of food allergies, particularly those caused by protein, following the ingestion of specially refined oil.

The beans furnish a home-grown nitrogenous concentrate for animal feeding, being a source of protein for sheep, beef and dairy cattle and brood sows. It should, however, be used with caution in the rations of market hogs, since it produces soft

## Hard to Fit?

HAVE you experienced difficulty in securing a dress to fit you properly? Do you find the dresses you order a little tight in the hips, a bit narrow across the shoulders or short in the sleeves? Do you find it hard to decide what type of foundation garment you require?

If these are your problems, then your figure probably is a little different from the average type. You are the type who should measure yourself very carefully or, better still, you should have somebody else do it for you. Never be satisfied to order the same size you had last time. Measure and make sure of the size you wear every time you order.

Why not write to EATON'S Stylized Store, enclosing your measurements, and I will be glad to advise you regarding your requirements. However, you must remember that I am not a shopper and act solely in an advisory capacity.

*Just Dr.*

pork.

As a protein supplement, the oil meal is of value in the rations of beef cattle, dairy cows, sheep and poultry. A simple mineral mixture is advantageously added, since the meal is deficient in this respect.

For human use, the beans provide many forms of food stuffs. The green beans may be served as a vegetable or in salads. Flour made from processed beans, high in fat content, is now found in the products of many bakeries. Since starch is absent, soy bean flour is marketed in diabetic foods.

The dried beans have been used as a coffee substitute, in soups, as a source of casein, as a milk substitute and cheese.

As the composition of both the fat and the protein of soy beans more nearly approach the composition of these constituents found in animals, soy beans could be used to replace meat in the diet.

The uses of this interesting plant are finding increasing application.

The "apple a day" wheeze was probably originated by the serpent in the Garden of Eden.

Our sincerest wish for this month's ride-groom that he will like his new coat.

Last summer an Alberta town held a lawn mowing contest, but we doubt that such events will become popular.

It is said Eskimos enjoy having their teeth pulled. Also, a good many Canadians seem to enjoy having their legs pulled.

Magazines and newspapers still say you can make money taking sub-
